

**Statement of the Management on the countermotion
of the Dachverband der Kritischen Aktionärinnen und Aktionäre e.V.
to item 4 of the agenda of the Annual General Meeting on May 12, 2022**

The General Partner and the Supervisory Board stand by their proposed resolutions on the agenda and comment on the countermotion as follows:

Resolution on the approval of the actions of the Supervisory Board for fiscal year 2021

The allegations in the countermotion and in the complaint referenced by it are without merit and contradict Fresenius Medical Care's strong record of improved quality and outcomes for patients of all races and ethnicities. Dialysis providers like Fresenius Medical Care do not prescribe ultrafiltration rates, as each dialysis treatment is based on the physician prescription for each individual patient. Fresenius Medical Care continues to drive new product innovations to improve fluid management and personalize treatments. We strongly question the motive for the complaint.
